20 I.R.A. Internees Break Prison, Escape Into Eire

BELFAST, March 20.—(AP)—Twenty Irish nationalist internees escaped from Londonderry prison through a tunnel early today and sped across the border into neutral Eire in a furniture truck after cowering border guards with a submachine gun.

Later 11 of the 20 were recaptured in County Donegal by Eire police.

Engineering the biggest jail-break in the history of Northern Ireland, the prisoners crawled through a 30-foot tunnel which was dug from the prison yard to a coal shed of a house under the walls, then dashed one at a time to the waiting van.

At the border village of St. John, about six miles from the prison, the driver produced the gun and forced the guard to let them cross without a 30-foot tunnel which was dug from the prison yard to a coal shed of a house under the walls, then dashed one at a time to the waiting van.

Declare Guiana

Is Joining Them

LONDON, March 20.—(AP)—Fighting French headquarters in London said today that French Guiana had adhered to the cause of the Allies, declaring this announcement "superfluous" previous reports that the South American colony had lined up with Gen. Henri Girard of French North Africa.

The announcement said Maurice Berteaux, chief administrator of the Fighting French, was appointed governor in Guiana and that M. Collat, described as a high government official in the colony, had been named administrator of current affairs.

Gen. Girard's mission in Washington was to secure the release of the governor of Guiana and the mayor of Cayenne, the capital had transferred their allegiance to Guiana. A similar announcement was made in the French provinces of Alsace and Lorraine, where sabotage and acts of violence against occupying forces were on the rise.

Such reports said a military court in Strasbourg had sentenced 13 Alsatians to death and 11 to prison for "assisting the 'National Nations' movement" and plotting to overthrow the German government.

A Strasbourg newspaper, reporting from Switzerland, said that the French government had ordered the arrest of all French citizens in the German-occupied zone of Alsace and Lorraine, who were said to include a prominent court counselor, a Nazi secretary and prominent members of the French resistance.

Radio Dakar broadcast a report that the Germans had mobilized 4,000 Frenchmen from Alsace and Lorraine and ordered them through several German regiments on the Russian front. Other Alsace men were said to have been sent into war industries in the Ruhr.

Radio Moscow, reporting from Berlin, said that the French government had ordered the arrest of all French citizens in the German-occupied zone of Alsace and Lorraine, who were said to include a prominent court counselor, a Nazi secretary and prominent members of the French resistance.

TORONTO, March 20.—(BUP)—Hillier City council seeks establishment of a hockey hall of fame in the city. The council is considering a baseball hall of fame at Cooper's town, N.Y., but already Kingston, Ont., and Montreal have already advanced their claims as the site of any such hockey shrine. It is accepted that hockey had its beginning in Canada in one of those three cities. There is some question as to which one was first.

Andy Lytle of the Toronto Star says he learned from Manager Frank Sike of Toronto Maple Leafs that the National League plans to consider establishing a hockey shrine at its annual meeting in May. The basis for Toronto's bid for the memorial is not clear unless it is the fact that Maple Leaf Gardens has a couple of spare rooms available for the purpose.

To settle all arguments, Lytle suggests the shrine be based on Metakaka, B.C. "Shouldn't we, like the Americans, seek a remote and isolated place, a place for such a shrine?" he asks. "All right then, Metakaka has the memorial in a clear view of the lake. It is in B.C.'s vast hinterland, is the ideal spot."

Andy claims the Metakakas played hockey in the glacial age using a frozen wren egg for a puck and the outfielders rib of a grizzly bear for a stick. Tongue in cheek, he adds: "For skates they grooved 10-inch files into the caloused epidermis of their feet." Any candidates topping that one are not, but definitely.

Sports . . . Roundup

By HUGH FULLERTON, JR.
NEW YORK, March 20.—(BUP)—Greg Rice puts a lot of shot by the tactical aspects of foot racing. He thinks that the reason he doesn't try conclusions with the others is "mostly mental"—that if he knows how well he can do at a mile and therefore wouldn't fear a record as he likely will be in the Chicago Relay, he doesn't "really try" until he sees how the first half mile goes.

Shirley and Shirley. Ewen Lawson, the pro football coach, has just received a letter from one of his old quarterbacks at Columbia. The letter, Capt. Al Koenig, of the medical corps in New Orleans, asking if there's any truth in that rumor floating around the South Pacific that the Redskins must be back.

Laughing over the rumor. Explaining to President Tom Lockhart of the Eastern United States Amateur Hockey League of New Orleans, asking if there's any truth in that rumor floating around the South Pacific that the Redskins must be back.

Children Well Cared For While Canadian Mothers Work at War Machines

Dominion-Provincial Day Nurseries Release Many Women For Arms Plants

Each day the great war industries of Canada are enrolling more women to take the place of men called away from their machines by the increasing demands of the armed services. Already nearly a quarter of a million women are working in the war factories of the country. Immense release of womanpower was made possible by creation of day nurseries by Dominion and Provincial authorities.

It's bedtime now, time to go home for these two pre-school aged tots. They are daily wards of the Dominion-Provincial Day Nursery at Toronto. The mother is employed in a war plant and brings them to the nursery every day on way to work.

Organized group games are important to the programme planned for the day tots and are based on the Dominion-Provincial Day Nurseries. The very young baby shown at the extreme left apparently is having a little trouble with her cues.

This youngster's mother took him to the nursery at 7.00 o'clock, and then left for the munitions plant where she works. The child is getting a well-deserved nap after a busy morning. Picture was taken in a Toronto Dominion-Provincial Day Nursery.

The children themselves are the greatest boosters of wartime nurseries. Here a few of them take time out from reading or playtime to pose for picture.

Washing yourself is great fun when soap is just right size for a little fellow. Self-care aim at encouraging independence, with towel, brush, comb handy for each tot. War workers' children are the first choice in selection, but other youngsters are taken in up to 25 per cent of the total enrolment.

Getting ready for home is a strenuous business, particularly the problem of wrestling into galoshes. But in a few moments, mother will be calling for him.
